

AEM Forms Administration

Description: Adobe *AEM Forms* is a robust and complex set of enterprise form technologies and tools. Unfortunately, *AEM Forms* can be as confusing as it is comprehensive. Until now. This unique and innovative course covers both the *OSGI* and the *JEE* technology stack of *AEM Forms*. You will work hands-on with all of the important Adobe *AEM Forms* tools. The course includes lectures and demonstrations of each topic followed by hands-on exercises. Students will master Adobe's *AEM Forms* technology and tools in this intensive course.

Target audience: IT/Systems Admins, Developers, Business Leaders, and Technical Support Staff who work with AEM Forms Servers (versions 6.0, 6.1, 6.2, and 6.3).

Agenda: Day 1
